## Profile

Software Engineering student with hands-on experience in ASP.NET development and frontend web development. Proven ability to manage projects, work collaboratively in team settings, and deliver high-quality code under tight deadlines.

## Education

**BTech in Computer Science Engineering** *CGPA 8.92* **Anand, Gujarat 2023-Present**  
Charotar University of Science and Technology, Changa, Anand  
**Diploma in Information Technology** *CGPA 10* **Junagadh, Gujarat 2020-2023**  
Noble University, Junagadh

## Professional Experience

**ASP.NET Developer** (*Digikentro*) **Vadodara, Gujarat 08/2023 - present**

- Working as a ASP.NET Backend Developer, focusing on enhancing core .NET skills and deepening understanding of MVC structure.
- Improving coding practices by implementing best practices in code structure, testing, and debugging.
- Aiming to master fundamental .NET core and MVC concepts and frameworks such as MVC and Blazor to deliver high-quality software solutions.

**Frontend Web Developer** (*Extremes*) **Junagadh , Gujarat 10/2022 - 3/2022**

- Gained practical experience in frontend development, focusing on building and maintaining responsive web interfaces.
- Successfully learned the basics of frontend technologies, including HTML5, CSS3, and Tailwind CSS to create attractive and functional web pages.
- Learned solid understanding of basic JavaScript (JS), enhancing web pages with dynamic and interactive elements.

## Projects

**Role: Project Leader** *Customer relation management* **01/2023 - 04/2023**

- Managed the project development, ensuring timely delivery of milestones.
- Coordinated team efforts, assigning tasks and monitoring progress.
- Handled project documentation, including technical specifications and user manuals.

**Role: Developer** *inventory management system* **05/2024 - 06/2024**

- Designed and implemented an online inventory management system using HTML, CSS and JavaScript.
- Enabled add data and story in database.
- Utilized localStorage for data storing quiz questions and user scores.

## Online Courses & Certifications

- Java Fundamentals Course For Beginners(Jul. 2024) - [Udemy](#)
- Introduction to Software Engineering by IBM(Aug. 2024) - [Coursera-IBM](#)
- Database Management System (65per)(Jan. 2024) - [NPTEL](#)
- Programming in Java(Pesent) - [NPTEL](#)

## **Skills**

---

- **Languages:** C, HTML5, CSS3, JS , Java
- **Tools:** VSCode, Github, Jira, IntelliJ IDEA
- **Database:** SQL , Learning [ MongoDB ], SSMS
- **Framework:** Tailwind CSS, Learning [ Spring Boot, Angular ], ASP.NET
- **Soft Skills:** Planning, Organized, Self-Motivated, Teamwork, Active Listening, Adaptability, Time Management

## **Achievements**

---

- Recognized as a **Top Performer** during the internship at Digikentro for outstanding contributions to backend development, 2023.
